ASSOCIATION LINES WILL OPPOSE GRANTING TIME LIMITS.

The Southwestern Traffic Association May Dissolve-Effect of the Trusts on Freight Rates,

At the recent Interstate-commerce Commission hearing at New York a great deal was said regarding the railroads failing to handle traffic within a satisfactory time to be taken up again. Shippers who testified treated this as tion; consequently, traffic associations have been asked to agree to take shipments with | bers of the new Baitimore & Ohio directo just been issued by Chairman J. F. Tucker, of the Central Freight Association: "Written individual advice has been received from each road member to the Central Freight Association that it will not, under port or deliver within any prescribed limit of time domestic or export traffic forwarded over its own rails, nor authorize its connections to enter into such a stipulation or give such a guarantee in its behalf." The roads of the Trunk-line Association have adopted the following resolution: "That the trunk lines decline to become a party to any guarantee in time of movement and delivery of export or domestic freight traffic, either lake and rail or all rail." A general freight official said yesterday that agreeing to such a thing would be discrimination that would F. Van Deusen, assistant general passenger develop rate cutting. There would have to be a penalty for failure to get a shipment to destination within the time limit, and hours, adjusting rates from interior points roads would take advantage of this, fall to of Illinois to the lakes and western terkeep within the limit and give shippers a rebate. For this reason the Interstate-commerce Commission and the traffic associa-tions are opposed to the plan.

The assocition has been a powerful factor in maintaining rates, and if its life ends a state of demoralization such as existed for some time in the West and South is likely to ensue. The lines have been enabled to maintain rates absolutely, and the inspector of the association has saved a good deal to lines in the way of freight.

The bears made some further progress in forcing prices to a lower level on the Stock Exchange, yesterday, but they were by no means in so aggressive and confident a mood as the day before. There was very heavy covering of short contracts during the course of the day, and last prices are materially above the lowest, even in those stocks which show the heaviest net losses. The bears met determined resistance in some of the stocks which have hitherto proved most vulnerable to their attack. The latter part of the day showed a distinctly improved tone and an upward tendency of prices with no disposition apparent from the bear faction to make further ventures for the present. After the opening dip in prices there was the usual professional covering designed to meet the orders of outside operators. The resulting rally was shortlived and the bears then made their demonstration in force. They brought out heavy liqui-dation in the Tobacco stocks, Western Union, Metropolitan Street-railway, Manhattan and Brooklyn Transit, and extended their operations in spite of the weakness of the wheat market, to the granger group. The Union Pacific and Northern Pacific stocks were savagely attacked simultaneously with the appearance of the statemen that Union Pacific's net earnings for April showed a decrease of over \$117,000, compared with the corresponding period last year. Coupled with a similar poor statement of North Pacific's earnings, which appeared Wednesday, this caused a break in the stocks of the two companies ranging from per cent., in North Pacific, up to 2%. Inion Pacific. The extreme decline in Metropolitan Street-railway was 7 points. The continued weakness of Amalgamated Copper, which sold down to 87, in odd lots, in the outside market, served to encourage the bears as indicating an abandonment of a purpose of the present powerful interests behind that property to support the price any longer. There were several develop ments, however, during the day, which served to dissipate bearish enthusiasm. It was noticeable that nothing further was neard of the yellow-fever scare and roads in the territory affected were firmly held in the stock market all day. London was a larger buyer of Louisville, in spite of other elements of weakness in that market. This and the easing of call money in London after the settlement, caused an easier tone in the sterling exchange market here and so mitigated Wednesday's apprehensions of immediate gold exports. The reported large selling of wheat for Southwestern account helped to keep the railroad stocks of that

region firm. There were reports of favorable conditions and prospects in the anthra-cite trade. A scrutiny of the Union Pacific statement showed that the decreased net earnings was due to an increase in operatments and betterments. There were evidences, also, of positive strength in Sugar, Rubber and the smelting stocks. When Metropolitan Street - railway suddenly bounded upwards a point at a time, to 20 the bears were quick to take alarm, and, other conditions also pointing a warning, they rushed to cover. The extreme gains from the low point were in Metropolitan.

LOCAL GRAIN AND PRODUCE.

The Month Opens with Favorable Prospects and Strong Prices. The wholesale and commission merchants are much gratified over the good business done in May and anticipate a brisk trade through June, as the season has been late. Dry goods houses are doing an unusually good business for so late in the season. Grocers were never more busy the same is true of druggists, dealers in iron and steel products, glass, etc. On Commission row less is heard about slow business. The market was yesterday again overstocked with strawberries. There is still a good demand for old Irish potatoes, new potatoes selling rather slow. The commission houses are handling large quantities of green stuff. New cherries are on the market. Gooseberries and currants have made their appearance, but too green to be fit for use. The produce market rules unusually steady as to prices and poultry, eggs, butter and cheese are all in good request at prices quoted.

The local grain market is more active on in creasing receipts. All cereals are in active request at the following range of prices, as fur-nished by the secretary of the Board of Trade:

WHEAT SLUMPED AGAIN

PROFIT TAKING ENABLED SHORTS TO SEND JULY BACK TO 76 1-2C.

Buils Transferred Largely to the September Option - Provisions Showed More Strength.

CHICAGO, June 1.-Profit-taking and changing over into September caused a drop of 2021 in July wheat to-day. Corn lost %@1/c and oats 1/6/4c. Pork advanced 75c, lard 5c and ribs 5c. Large Northwest receipts and weak cables

caused a weak opening in wheat. Reports of further damage by Hessian flies encouraged enough buying during the first hour to check the decline, but offerings increased as the market sagged. The bulls appeared ready to sacrifice a large slice of the recent profits and the bears pressed their advantage. Liquidation became general near the end. September closed with a premium of %@4c over July, owing to some changing over to the deferred option. Poor cash demand added to the weakness. July opened 1/20%c lower at 77%@78%c, sold sparingly at 78%c, declined to 76%c and closed with sellers at 76%@76%c. Chicago received 115 cars, eleven of which graded erage, 6%c; 14 to 16 lbs average, 7c. Clear contract. Minneapolis and Duluth got 928 cars, compared with 210 for the same day a year ago. The aggregate of receipts at Western primary markets was 730,000 bushels, against 832,000 last year. Atlantic port clearances of wheat and flour equaled 729,000. World's visible supply decreased 593,000 bushels.

Favorable crop reports, heavy receipts and slack cash demand weakened corn. Receipts, 605 cars. World's visible supply decreased 3,678,000 bushels. July opened 1/3c lower at 331/633%c, touched 33%c, declined to 32%@33c and closed with sellers at 33c. Oats ruled steady the greater part of the session, but were finally dragged down by wheat and corn. Receipts, 506,000 bushels. July started a shade lower at 23c, advanced to 23@23%c and declined to 22%c at the

Reassuring yellow fever news and com-mission house buying strengthened provi-sions. July pork opened a shade lower at 874@7.90, sold at \$7.87%, advanced to \$8@ 8.02% and closed at \$8. Lard and ribs were dull within narrow limits. Estimated receipts for Friday-Wheat, 62 cars; corn, 357 cars; oats, 290 cars; hogs, Leading futures ranged as follows:
